Personal Statement

I am a dedicated specialist who consistently places attention, skill and expertise on each project I embark on. Since I have a deep enthusiasm for coding, I take pleasure in completing tasks that involve C#, Asp.Net MVC, Core MVC, PHP, HTML, CSS, React and WordPress. To be able to offer work of high standards is something that makes me happy, therefore my skills in these areas are constantly enhanced. Despite the difficulty of problems, I am motivated by my commitment to perfection so as to make meaningful contributions to any team or project.

Academic Qualifications

BS Computer Science	2019-2023	Bacha Khan University Charsadda.
F.Sc (Pre Engineering)	2017-2019	Tameer-e-Seerat Education System.
SSC (Matriculation)	2015-2017	ANSI School & Degree College University Mardan.

*Best achievement was getting an A grade in WordPress & Web Application courses.

Final Year Project

The final year project was about creating a “Face Recognition Attendance System in Unconstrained Environments.” The system has a GUI that is user-friendly, but experienced users mostly interact with it via command line interface. Our implementation focused on rich features such as various embedding techniques; modules for training, detail oriented employee management and strong security measures-all developed using Python. The main aim was to develop a solution that would cater for advanced users’ demands effectively.

List of Key Projects

1. Travel & Tour website (Used WordPress).
2. Restaurant website and Application (Used WordPress).
3. Course website (Used WordPress). <https://careerpath.themedscalemarketing.com/>
